A phone receptionist that picks up for you. Nothing to install, I take care of everything.

It picks up 7 days a week, gives information, takes the appointment request and sends you a summary after every call.

How much you are losing (example)

Tables of 4 lost per week (example: 9 unanswered calls, 1 in 3 wanted to book)	3
Value of a table of 4 (example)	\$110
Lost per week	\$330
Over 4 weeks	\$1,320

Example to adapt to your business: this is not a promise of earnings.

What it costs

Two plans, same service, same 60-day guarantee. No commitment: \$649 one-time setup (\$324.50 until 10/31/2026), then \$108.90 a month, VAT included. 12-month commitment: \$319 one-time setup, then \$108.90 a month, VAT included. 150 minutes of calls included, then \$0.385 a minute.

\$3.63 a day. Saving just one table of 4 a week pays for the whole month.

60-day guarantee: not satisfied within 60 days, the setup fee is refunded, no conditions. Monthly fees start from go-live.

OPTION	WHAT IT COSTS	WHAT YOUR CUSTOMER HAS TO DO	WHAT'S MISSING
Smith.ai (US AI receptionist)	From \$150 a month for 75 calls	Nothing	Billed per call; French support not confirmed on their page
Human answering service (e.g. Kandbaz)	From \$67.10 a month excl. VAT (\$80.52 incl. VAT)	Nothing	Real price on quote, depends on volume; often office hours
Zenchef AI Concierge	\$250.80 a month (subscription from \$141.90 + \$108.90 add-on)	Nothing	Only for Zenchef customers; Zenchef writes into its own book, Vocalia does not
Vocalia	\$649 setup + \$108.90 a month (that is \$3.63 a day)	Nothing	No live call transfer; 10 minutes maximum per call

It's too expensive.

Look at the table: \$3.63 a day, and saving just one table of 4 a week pays for the month. Not satisfied within 60 days: the setup fee is refunded.

An AI on the phone is scary.

It introduces itself as a voice assistant, talks in real time and lets callers interrupt. You can try it live, a 90-second call, at organizen.ai/en/agent-vocal (code sent by email).

I already have voicemail.

On the carrier's voicemail, nobody gives information or takes a time slot, and many callers hang up. Vocalia picks up, answers questions, takes the request and sends a summary.

What if the caller wants a human?

No live call transfer: it tells the caller and hands over by message (email or WhatsApp), with the call summary.

How it starts

1. You scan the code and see the offer.
2. A 15-minute meeting to decide.
3. Setup is done for you: nothing to install on your side.

What you get

- Picks up 7 days a week, in real time, and says it is an AI
- Gives information and takes the appointment or time-slot request
- Follows the caller's language (listen to it in the demo)
